ATLANTA, Ga, June 6, 2018 - Secureworks (NASDAQ: SCWX), a leading global cybersecurity company that protects organizations in the digitally connected world, today announced financial results for its first quarter ended May 4, 2018.

"We had a strong start to the year with first quarter revenue and MRR each up 11 percent and with sales continuing its momentum. The global demand for our solutions continues to be large and growing. Second Quarter and Full Fiscal Year 2019 Guidance

Secureworks provides guidance based on current market conditions and expectations. The guidance ranges provided below reflect adoption of ASC 606 and ASC 340-40, effective in the first quarter of fiscal 2019. The Company has posted historical, unaudited information related to the impact of adopting these standards on the investor section of its website.

For the second quarter of fiscal 2019 the Company expects:

- Revenue of \$127 to \$128 million on both a GAAP and non-GAAP basis.
- Net loss per share of \$0.16 to \$0.17 and non-GAAP net loss per share of \$0.05 to \$0.06.

Based on first quarter fiscal 2019 performance and current business trends, the Company has updated its guidance for the full fiscal year 2019. The Company now expects:

- GAAP and non-GAAP revenue of \$515 to \$518 million.
 - Net loss of \$48 to \$51 million and \$0.59 to \$0.63 on a per share basis. The increased net loss and net loss per share are primarily attributable to a lower tax benefit rate now anticipated for fiscal 2019 of approximately 22 percent.
 - Non-GAAP net loss per share of \$0.15 to \$0.19.
 - Adjusted EBITDA loss of \$3 to \$7 million.

Non-GAAP Financial Measures

This press release presents information about the Company's non-GAAP revenue, non-GAAP gross margin, non-GAAP research and development expenses, non-GAAP sales and marketing expenses, non-GAAP general and administrative expenses, non-GAAP operating loss, non-GAAP net loss, non-GAAP net loss per share and adjusted EBITDA, which are non-GAAP financial measures provided as a supplement to the results provided in accordance with GAAP. The Company believes these non-GAAP financial measures provide useful information to help evaluate its operating results by facilitating an enhanced understanding of its operating performance and enabling more meaningful period-to-period comparisons. There are limitations to the use of the non-GAAP financial measures presented in the press release. These non-GAAP financial measures may not be comparable to similarly titled measures of other companies. Other companies, including companies in Secureworks' industry, may calculate non-GAAP financial measures differently than the Company does, limiting the usefulness of those measures for comparative purposes.

A reconciliation of each non-GAAP financial measure to the most directly comparable GAAP financial measure is provided below for each of the periods indicated. Investors are encouraged to review the reconciliations in conjunction with the presentation of the non-GAAP financial measures for each of the periods presented. In future fiscal periods, the Company may exclude such items and may incur income and expenses similar to these excluded items. Accordingly, the exclusion of these items and other similar items in this non-GAAP presentation should not be interpreted as implying that these items are non-recurring, infrequent or unusual.

The Company excludes the following items from one or more of its non-GAAP financial measures:

Impact of purchase accounting. The impact of purchase accounting consists primarily of purchase accounting adjustments related to a change in the basis of deferred revenue for the acquisition of Dell Inc. ("Dell") by Dell Technologies Inc. in fiscal 2014.

Amortization of intangible assets. Amortization of intangible assets consists of amortization of customer relationships and acquired technology. In connection with the acquisition of Dell by Dell Technologies Inc. in fiscal 2014, all of the Company's tangible and intangible assets and liabilities were accounted for and recognized at fair value on the transaction date. Accordingly, amortization of intangible assets consists of amortization associated with intangible assets recognized in connection with this transaction.

Stock-based compensation. Non-cash stock-based compensation relates to awards under both the Dell Technologies Inc. and Secureworks equity plans. We exclude such expenses when assessing the effectiveness of our operating performance since they do not necessarily correlate with the underlying operating performance of the business.

Aggregate adjustment for income taxes. The aggregate adjustment for income taxes is the estimated combined income tax effect for the adjustments mentioned above. The tax effects are determined based on the tax jurisdictions where the above items were incurred.

As the excluded items can have a material impact on earnings, management compensates for this limitation by relying primarily on GAAP results and using non-GAAP financial measures supplementally. The non-GAAP financial measures are not meant to be considered as indicators of performance in isolation from or as a substitute for revenue, gross margin, research and development expenses, sales and marketing expenses, general and administrative expenses, operating loss or net loss prepared in accordance with GAAP, and should be read only in conjunction with financial information presented on a GAAP basis.
